

## JQuery Mobile Assignment B

The following jQuery Mobile document, `prob1Gaps.html` (which you can download from the assignment site), is missing two "pages," with `ids` `"jQuery"` and `"jQM"`. You add the code for these pages (see the information below) and submit the result, renamed as `prob1.html`. The rendering is below at right.

```
<html>
<head>
  <meta name="viewport" content="width=device-width, initial-scale=1" />
  <link rel="stylesheet" href=
    "http://code.jquery.com/mobile/1.4.5/jquery.mobile-1.4.5.min.css" />
  <script src="http://code.jquery.com/jquery-1.11.1.min.js">
  </script>
  <script
    src="http://code.jquery.com/mobile/1.4.5/jquery.mobile-1.4.5.min.js">
  </script>
</head>
<body>
<div data-role="page">
  <div data-role="header">
    <h1>jQuery Etc.</h1>
  </div>
  <div data-role="content">
    <ul>
      <li><a href="#jQuery">jQuery</a></li>
      <li><a href="#jQM">jQuery Mobile</a></li>
    </ul>
  </div>
</div>
<!-- Missing content -->
</body>
</html>
```

The second "page" has `id='jQuery'` and its rendering is shown at left at the top of the next page. Its "header" contains an `h1` with content `"jQuery"` and its "content" is as shown. The third "page" has `id='jQM'` and its rendering is shown at right at the top of the next page.. Its "header" contains an `h1` with content `"jQuery Mobile"` and its "content" as shown. The content of the "content" parts of these "pages" is in a file `content.txt`, which you can download from the assignment site (saving you the need to type this material).

### jQuery

jQuery is a cross-platform JavaScript library designed to simplify the client-side scripting of HTML. jQuery is the most popular JavaScript library in use today. jQuery is free, open-source software licensed under the MIT License.

### jQuery Mobile

jQuery Mobile is a touch-optimized web framework (also known as a mobile framework), more specifically a JavaScript library, currently being developed by the jQuery project team. The development focuses on creating a framework compatible with a wide variety of smartphones and tablet computers, made necessary by the growing but heterogeneous tablet and smartphone market.
